Orgone Effects® has a long-standing history of developing Electromagnetic Frequencies harmonizing products to neutralize the harmful effects of all forms of noxious energy emissions since its inception in 2000.

Based in Melbourne, Australia, we are the sole manufacturer of the Orgonium® range of EMF harmonizing products. Our extensive range of products represents over 20 years of Intuitive Building Biology Consultancy experience and an intricate and advanced knowledge of the types of harmful electromagnetic fields (EMF) which may exist within a space.

Our products are either manufactured by Orgone Effects® or are sourced and infused with our unique Orgonium® Resonance Technology, which has been developed and refined over many years of research and field testing.

All our products produce a negative charge resonance, which is as close to nature as possible. This is vitally important because the correct negative charge frequencies are required to successfully neutralize and balance the positive charge resonance; the harmful component of any electromagnetic field, thus neutralizing any electromagnetic stress on the human meridian system.

## **Our mission...**

Is to create a crystal-clear living and workspace that supports your health and emotional well-being, so you can get on with your life in a happier, healthier and more vibrant environment.

*We would like to welcome you to the Orgone Effects® family. This document provides some guidelines surrounding the use of our brand property across promotional material, and how you can access our vast bank of image, videos and brand materials.*

*If you require anything in addition to these assets to help you better promote and sell our products please contact our team at [enquiries@orgoneeffects.com](mailto:enquiries@orgoneeffects.com).*
